

Transition Year Update

Below are the plans for TYs for the last semester.
In addition, TYs will be having a virtual assembly over the next week where these plans can be explained in greater detail.

Core Subjects: Continue to engage in online work for English, Gaeilge, Maths and French/Spanish until classes finish on Friday 22nd May. This is to allow our teachers to do formal assessments with our other year groups the following week. These subjects will be assessed by 22nd May and a grade for these subjects will appear on the end of term report.

Portfolio: To be submitted electronically using a PDF Scanner or PowerPoint by Friday 15th May. ARD to be emailed to Ms. Collins and GIL to be emailed to Ms. Delaney. A video explaining how to do this will be on Edmodo and Social Media. This will be assessed, is worth 10% and will be included in their final TY report

Interview: The end of year interview will take place via Microsoft forms and will be emailed to students to be completed on Friday 15th May. This is worth 10% of their TY Grade and will appear on their final report.

Graduation: TYs will engage in end of year tasks on Monday 25th and Tuesday 26th April and a virtual Graduation video will be live on the school website and social media on Wednesday 27th May.
Graduation Certificates will also be posted home upon our return to school.

Thank you to all our TY students and parents who have engaged with us so well during this challenging time.

We would encourage you all to continue to do so in this last semester as your continued engagement with Core Subjects is imperative for transition to Senior Cycle in September.
